Distraught over the sudden disappearance of his wife, Zack tries to drown his grief in Tijuana, then returns to the U.S. with a stolen stash of marijuana. Using this as an impetus to change his life, Zack sets off for New York with the weed and a vintage Nikon. Through the lens of the old camera, he starts rediscovering himself by photographing an America we rarely see. His journey unleashes a series of erratic, hilarious, and life-threatening events interspersed with flashbacks to his relationship with Stella and life in Eastern Europe at the end of the 1980s. A suspenseful, darkly funny love story, 18% Gray won both the Bulgarian Novel of the Year Award and the Flower of the Readers Award when it was first published in 2008, and received the praise of critics everywhere.
