

## The Early Entrepreneur

Why work for someone else, doing something you don't enjoy while slaving away for barely enough money to survive on? Why not be your own boss, with your own company and employees, running things your way? The Early Entrepreneur will show you how to find a great business idea and turn it into a reality. It will show you how to make business plans and financial statements, choose a corporate structure, and grow your business from a part-time hobby to a full-time successful and professional company. You're only young once, and there is no better time to start a business than right now. Let The Early Entrepreneur guide you through the start-up process.
