

Multiple Comparisons and Multiple Tests (Text and Workbook Set)

This set includes Multiple Comparisons and Multiple Tests Using the SAS System and Multiple Comparisons and Multiple Tests Using the SAS System Workbook. The Workbook, written specifically for use with Multiple Comparisons and Multiple Tests Using the SAS System, provides real-world problems and solutions that will enhance your understanding of the material in the main text. The Workbook also provides updated information about multiple comparisons procedures, including enhancements for Release 8.1 of SAS. The chapters in the Workbook correlate with the chapters in the main text, and the format is clear and easy to use. This set is quite useful for learning multiple comparisons procedures in standard linear models, multivariate analysis, categorical analysis, and regression and nonparametric statistics.
