

Invisible North: The Search for Answers on a Troubled Reserve

A vivid first-person account of life on a troubled reserve that illuminates a difficult and oft-ignored history. When freelance journalist Alexandra Shimo arrives in Kashechewan, a fly-in, northern Ontario reserve, to document its deplorable living conditions, she finds herself drawn into the troubles on the reserve. Unable to cope with the desperate conditions, she begins to fall apart. Part memoir, part history of the Canadian reserves, *Invisible North* is an expansive exploration and unorthodox take on many of the Native issues that dominate the news today, including suicide crises, murdered and missing indigenous women and girls, Treaty rights, Native sovereignty, and deep poverty. Through hard-won truths and insight, Shimo offers a tender retelling of the lives of a people at the edge and a moving tribute to what it takes to survive.
