

Tile Chess (Steve Jackson games)

In Tile Chess, the traditional chess pieces move across a virtual board of ever-changing size and shape. Strategy becomes more complex; as you conquer each of your opponents, you take over their pieces! To win, you'll have to think outside the board . . . Tile Chess is designed for 2 to 6 players. It's even more portable than chess - there is no board, and the tiles will fit in a pocket. You can play on a table, a bar, the floor . . . wherever you like. This set contains six sets of 16 tiles each, plus complete rules . . . enough for one large game, two smaller ones, or three 2-player games at once. An understanding of the basic moves of chess is required for play.
